5005 FRAME ASSY.

**HOW TO FIND FRAME NUMBERS**

1. USE MODEL APPLICATION CHART

Truck models are listed alphabetically beginning on page 2.

2. USE SECTION MODULUS●

a. Frames can be identified by the section modulus and P.S.I. which are shown in the Truck Data Book.

b. Section modulus is also shown in the Model Application Chart beginning on page 2 to aid in frame selection.

● "Frame section modulus" is the engineering term that indicates, for comparative purposes, the relative strength of two or more frames of the same supported length, shape and material. All other things being equal, the frame with the largest section modulus will have the greatest strength and stiffness, i.e., the ability to more effectively resist sagging under full loads. It takes into account frame depth, flange width and material thickness. "P.S.I." designates pounds of yield strength per square inch.

**EXPLANATIONS OF NOTES AND ABBREVIATIONS APPEARING IN THE FRAME MODEL APPLICATION CHART**

SERVICE NOTE:

- 1-long overhang without reinforcement
- 2-long overhang with reinforcement
- 3-short overhang
- 93 - frames must be ordered through special order department with vehicle serial number - - side rails prior to 1984 are not drilled

**5025-36 CROSSMEMBER (FRAME)**

◆Crossmember locations are determined from front to rear. "F" designates front (No. 1) crossmember. "R" designates rear crossmember. One crossmember required for each application shown, unless otherwise noted.

(PARTS are LISTED from Front to Rear)

**5025-36 CROSSMEMBER (FRAME) — Cont'd**

CROSSMEMBER APPLICATION

How to find the Part Number of a Crossmember for a 1990/ frame

1. Find the truck model in the (alphabetical) Model Application Chart which starts below.
2. Find the Crossmember Parts Lists Number which pertains to your unit.
3. Turn to the Parts List (following Application Chart) and find the Crossmember needed.

EXHAUST SYSTEMS MODEL APPLICATION CHART

How to find the part number for a component part of an exhaust system:

1. Find the truck model in the alphabetical Model Application Chart which starts below.
2. Find the Parts List Number for your unit.
3. Turn to the Parts List which follows the Application Chart and find the component needed.

(PARTS are LISTED from FRONT to REAR  
. . .OR. . .  
BOTTOM to TOP of the EXHAUST SYSTEM)

EXAMPLE: To find a muffler for a 1980 B600 with 370 gas engine, look first in the Model Application Chart for B600. Next, find "G" for "gas engine", "370" for 370 C.I.D. under model B600. Parts List 68 shows exhaust system parts for the model. Turn to Parts List 68 and find part number D9HZ 5230-A for the muffler.

1	E1HZ 5277-M	Bracket (muffler support)-From 1/5/81 to 1/3/83	1	D8HZ 5A273-A	Shield (muffler)
1	E3HZ 5277-L	Bracket (muffler support)-1/3/83	2	D8HZ 5C264-A	Clamp (shield to muffler)
1	D8HZ 5230-AV	Muffler-Before 12/83	1	E5HZ 5C264-B	Clamp (muffler to bracket)-upper
1	E2HZ 5230-L	Muffler-From 12/83	1	D3HZ 5A231-E	Clamp (outlet pipe to muffler)
1	D3HZ 5A231-E	Clamp (muffler to bracket)-lower	1	D8HZ 5255-AH	Pipe (outlet)-Before 12/83
1	★D7HT 5A290-DB	Hanger (extension to bracket)	1	D8HZ 5255-A	Pipe (outlet)-From 12/83
1	D8HZ 5A273-A	Shield (muffler)	1	D8HZ 5C208-B	Cap (outlet pipe)
2	D8HZ 5C264-A	Clamp (shield to muffler)	PARTS LIST NO. 60		
1	E5HZ 5C264-B	Clamp (muffler to bracket)-upper	1	D5HZ 5A231-F	Clamp (inlet pipe to engine)
1	D3HZ 5A231-E	Clamp (outlet pipe to muffler)	1	D8HZ 5246-N	Pipe (inlet)
1	D8HZ 5255-AH	Pipe (outlet)-Before 12/83	1	E1HZ 5A231-F	Clamp (inlet pipe to connector)
1	D8HZ 5255-A	Pipe (outlet)-From 12/83	1	D0HZ 5B286-A	Connector
1	D8HZ 5C208-B	Cap (outlet pipe)	1	E1HZ 5A231-F	Clamp (connector to extension)
PARTS LIST NO. 58			1	D8HZ 5A212-DV	Extension
1	D5HZ 5A231-F	Clamp (inlet pipe to engine)	1	E1HZ 5A231-F	Clamp (extension to muffler)
1	D8HZ 5246-N	Pipe (inlet)	1	★D7HT 5A290-DB	Hanger (extension to bracket)
1	E1HZ 5A231-F	Clamp (inlet pipe to inlet pipe)	1	D8HZ 5277-G	Bracket (bracket to frame)
1	E1HZ 5246-C	Pipe (inlet)	1	D8HZ 5F230-B	Cap (bracket to frame)
1	E1HZ 5A231-F	Clamp (inlet pipe to extension)	1	D8HZ 5277-AS	Bracket (muffler support)-Before 1/5/81
1	D8HZ 5A212-DZ	Extension	1	E3HZ 5277-N	Bracket (muffler support)-From 1/5/81
1	D8HZ 5277-G	Bracket (bracket to frame)	1	D8HZ 5230-AW	Muffler-Before 12/83
1	D8HZ 5F230-B	Cap (bracket to frame)	1	E3HZ 5230-D	Muffler-From 12/83
1	D8HZ 5277-AR	Bracket (muffler support)-Before 1/5/81	1	D3HZ 5A231-E	Clamp (muffler to bracket)-lower
1	E1HZ 5277-M	Bracket (muffler support)-From 1/5/81 to 1/3/83	1	D8HZ 5A273-A	Shield (muffler)
1	E3HZ 5277-L	Bracket (muffler support)-1/3/83	2	D8HZ 5C264-A	Clamp (shield to muffler)
1	E1HZ 5A231-F	Clamp (extension to muffler)	1	D3HZ 5A231-E	Clamp (outlet pipe to muffler)
1	★D7HT 5A290-DB	Hanger (extension to bracket)	1	E5HZ 5C264-B	Clamp (muffler to bracket)-upper
1	D8HZ 5230-AW	Muffler-Before 12/83	1	D8HZ 5255-AG	Pipe (outlet)-Before 12/83
1	E3HZ 5230-D	Muffler-From 12/83	1	D8HZ 5255-B	Pipe (outlet)-From 12/83
1	D3HZ 5A231-E	Clamp (muffler to bracket)-lower	1	D8HZ 5C208-A	Cap (outlet pipe)
1	D8HZ 5A231-A	Shield (muffler)	PARTS LIST NO. 61		
1	F1HZ 5C264-C	Clamp (shield to muffler)-upper	1	D5HZ 5A231-F	Clamp (inlet pipe to engine)
1	D8HZ 5C264-A	Clamp (shield to muffler)-lower	1	D8HZ 5246-N	Pipe (inlet)
1	D3HZ 5A231-E	Clamp (outlet pipe to muffler)	1	E1HZ 5A231-B	Clamp (inlet pipe to connector)
1	D8HZ 5C264-B	Clamp (muffler to bracket)-upper	1	D0HZ 5B286-A	Connector
1	E5HZ 5255-AG	Pipe (outlet)-Before 12/83	1	E1HZ 5A231-B	Clamp (connector to extension)
1	D8HZ 5255-B	Pipe (outlet)-From 12/83	1	D9HZ 5A212-A	Extension
1	D8HZ 5C208-A	Cap (outlet pipe)	1	E1HZ 5A231-B	Clamp (extension to muffler)
PARTS LIST NO. 59			1	D8HZ 5277-G	Bracket (bracket to frame)
1	D5HZ 5A231-F	Clamp (inlet pipe to extension)	1	D8HZ 5F230-B	Cap (bracket to frame)
1	D8HZ 5246-N	Pipe (inlet)	1	D8HZ 5277-AN	Bracket (muffler support)-Before 1/5/81
1	E1HZ 5A231-B	Clamp (inlet pipe to connector)	1	E3HZ 5277-N	Bracket (muffler support)-From 1/5/81
1	E1HZ 5B286-C	Connector	1	D8HZ 5230-AV	Muffler-Before 12/83
1	E1HZ 5A231-B	Clamp (connector to extension)	1	E2HZ 5230-L	Muffler-From 12/83
1	D8HZ 5A212-S	Extension	1	★D7HT 5A290-DB	Hanger (extension to bracket)
1	E1HZ 5A231-B	Clamp (extension to muffler)	1	D3HZ 5A231-E	Clamp (muffler to bracket)-lower
1	★D7HT 5A290-DB	Hanger (extension to bracket)	1	D8HZ 5A273-A	Shield (muffler)
1	D8HZ 5277-G	Bracket (bracket to frame)	2	D8HZ 5C264-A	Clamp (shield to muffler)
1	D8HZ 5F230-B	Cap (bracket to frame)	1	E5HZ 5C264-B	Clamp (muffler to bracket)
1	D8HZ 5277-AS	Bracket (muffler support)-Before 1/5/81	1	D8HZ 5255-AH	Pipe (outlet)-Before 12/83
1	E3HZ 5277-N	Bracket (muffler support)-From 1/5/81	1	D8HZ 5255-A	Pipe (outlet)-From 12/83
1	D8HZ 5230-AV	Muffler-Before 12/83	1	D3HZ 5A231-E	Clamp (outlet pipe to muffler)
1	E2HZ 5230-L	Muffler-From 12/83	1	D8HZ 5C208-B	Cap (outlet pipe)
1	D3HZ 5A231-E	Clamp (muffler to bracket)-lower

PARTS LIST NO. 169 — Cont'd			PARTS LIST NO. 170 — Cont'd		
1	D3HZ 5A231-E	Clamp (muffler to support)	1	E1HZ 5A231-H	Clamp (outlet pipe to muffler)
1	D8HZ 5A273-A	Shield (muffler)-w/guards	1	D8HZ 5255-B	Pipe (outlet)-bright
1	E5HZ 5C264-B	Clamp (shield to muffler)-lower-w/o guards	1	D8HZ 5255-A	Pipe (outlet)-plain
1	F1HZ 5C264-C	Clamp (shield to muffler)-lower-w/guards	1	D8HZ 5C208-A	Cap-bright
1	E5HZ 5C264-B	Clamp (shield to muffler)-upper-w/o guards	1	D8HZ 5C208-B	Cap-plain
1	E1HZ 5C264-C	Clamp (shield to muffler)-upper-w/guards	LEFT HAND SIDE		
1	E1HZ 5A231-H	Clamp (outlet pipe to muffler)	1	E1HZ 5A231-F	Clamp (inlet pipe to connector)
1	D8HZ 5255-B	Pipe (outlet)-bright	1	E1HZ 5B286-B	Connector
1	D8HZ 5255-A	Pipe (outlet)-plain	1	E1HZ 5A231-F	Clamp (connector to extension)
1	D8HZ 5C208-A	Cap-plain	1	E3HZ 5A212-E	Extension-plain
1	D8HZ 5C208-B	Cap-bright	1	E3HZ 5A212-D	Extension-bright
LEFT HAND SIDE			1	E1HZ 5A231-F	Clamp (extension to muffler)
1	E1HZ 5A231-F	Clamp (extension to connector)	1	E8HZ 5230-B	Muffler-plain
1	D0HZ 5B286-B	Connector	1	E8HZ 5230-A	Muffler-bright
1	E1HZ 5A231-F	Clamp (connector to extension)	1	D8HZ 5277-G	Bracket (support to frame)
1	E8HZ 5A212-N	Extension-plain	1	E3HZ 5277-N	Support
1	E8HZ 5A212-R	Extension-bright	1	D8HZ 5F230-B	Cap (support)
1	E1HZ 5A231-F	Clamp (extension to muffler)	2	★ 5A290	Hanger (support)
1	E8HZ 5230-B	Muffler-plain	1	D3HZ 5A231-E	Clamp (muffler to support)
1	E8HZ 5230-A	Muffler-bright	1	E5HZ 5C264-B	Clamp (shield to muffler)-lower-w/o guards
1	D8HZ 5277-G	Bracket (muffler to frame)	1	F1HZ 5C264-B	Clamp (shield to muffler)-lower-w/guards
1	E8HZ 5277-D	Support	1	E5HZ 5C264-B	Clamp (shield to muffler)-upper-w/o guards
1	D8HZ 5F230-B	Cap (support)	1	F1HZ 5C264-C	Clamp (shield to muffler)-upper w/guards
2	★ 5A290	Hanger (support)	1	D8HZ 5A273-A	Shield (muffler)
1	D3HZ 5A231-E	Clamp (muffler to support)	1	E1HZ 5A231-H	Clamp (outlet pipe to muffler)
1	D8HZ 5A273-A	Shield (muffler)	1	D8HZ 5255-B	Pipe (outlet)-bright
1	E5HZ 5C264-B	Clamp (shield to muffler)-lower-w/o guards	1	D8HZ 5255-A	Pipe (outlet)-plain
1	F1HZ 5C264-B	Clamp (shield to muffler)-lower-w/guards	1	D8HZ 5C208-B	Cap-plain
1	E5HZ 5C264-B	Clamp (shield to muffler)-upper-w/o guards	1	D8HZ 5C208-A	Cap-bright
1	F1HZ 5C264-C	Clamp (shield to muffler)-upper-w/guards	PARTS LIST NO. 171		
1	E1HZ 5A231-H	Clamp (outlet pipe to muffler)	1	E7HZ 5A231-A	Clamp (inlet pipe to engine)
1	D8HZ 5255-B	Pipe (outlet)-bright	1	E8HZ 5246-R	Pipe (inlet)
1	D8HZ 5255-A	Pipe (outlet)-plain	1	E1HZ 5A231-F	Clamp (inlet pipe to connector)
1	D8HZ 5C208-B	Cap-plain	1	★ 5B286	Connector
1	D8HZ 5C208-A	Cap-bright	1	E1HZ 5A231-B	Clamp (connector to extension)
PARTS LIST NO. 170			1	E8HZ 5A212-E	Extension-88" B.B.C.-plain-Y pipe

<b>5310 SPRING ASSY. (FRONT)</b>				

**HOW TO FIND A FRONT SPRING PART NUMBER**

1. USE THE TRUCK SPECIFICATION LIST (T.S.L.)
  - a. Find the Front Spring Number which appears on the T.S.L.
  - b. Refer to the Front Spring T.S.L. Cross-Reference Guide on page 2 to determine the service part number which corresponds to the T.S.L. number.
  - c. After locating a service part number, refer to group 5313 for available leaves.
2. USE THE SPRING IDENTIFICATION MARKING
  - a. Find the stamped number which appears on the spring.
  - b. Refer to the Front Spring T.S.L. Cross-Reference Guide on page 2 to determine the correct service part number.
  - c. After locating a service part number, refer to group 5313 for available leaves.
  - d. The identification marking also appears in the Model Application Chart (on page 3).
3. USE THE MODEL APPLICATION CHART
  - a. Determine the year and model of the truck. (In addition, it may be necessary to know the number of leaves or the spring identification marking).
  - b. Refer to the Model Application Chart (starting on page 3 of this section) to determine the correct service part number.
  - c. After locating a service part number, refer to group 5313 for available leaves.
  - d. SPRING RATING
 

There are two methods of describing spring ratings currently used in the trucking industry. They are (1) rating at the pad, and (2) rating at the ground. Both ratings are expressed in pounds. (Rating at Pad:) This figure represents the amount of weight above the pad which can actually be supported by the springs. This incl. the springs, chassis, body, and payload weights. (Rating at Ground:) This figure incl. the rating at pad plus the weight of components between the spring pad and ground. These components incl. axle, brakes, tires and wheels.
4. USE THE FRONT SPRING SIZE CHART
 

Refer to the Chart on page 2 and determine the correct service part number by using the spring "type" and dimension shown.

5560 SPRING ASSY. (REAR)

HOW TO FIND A REAR SPRING PART NUMBER

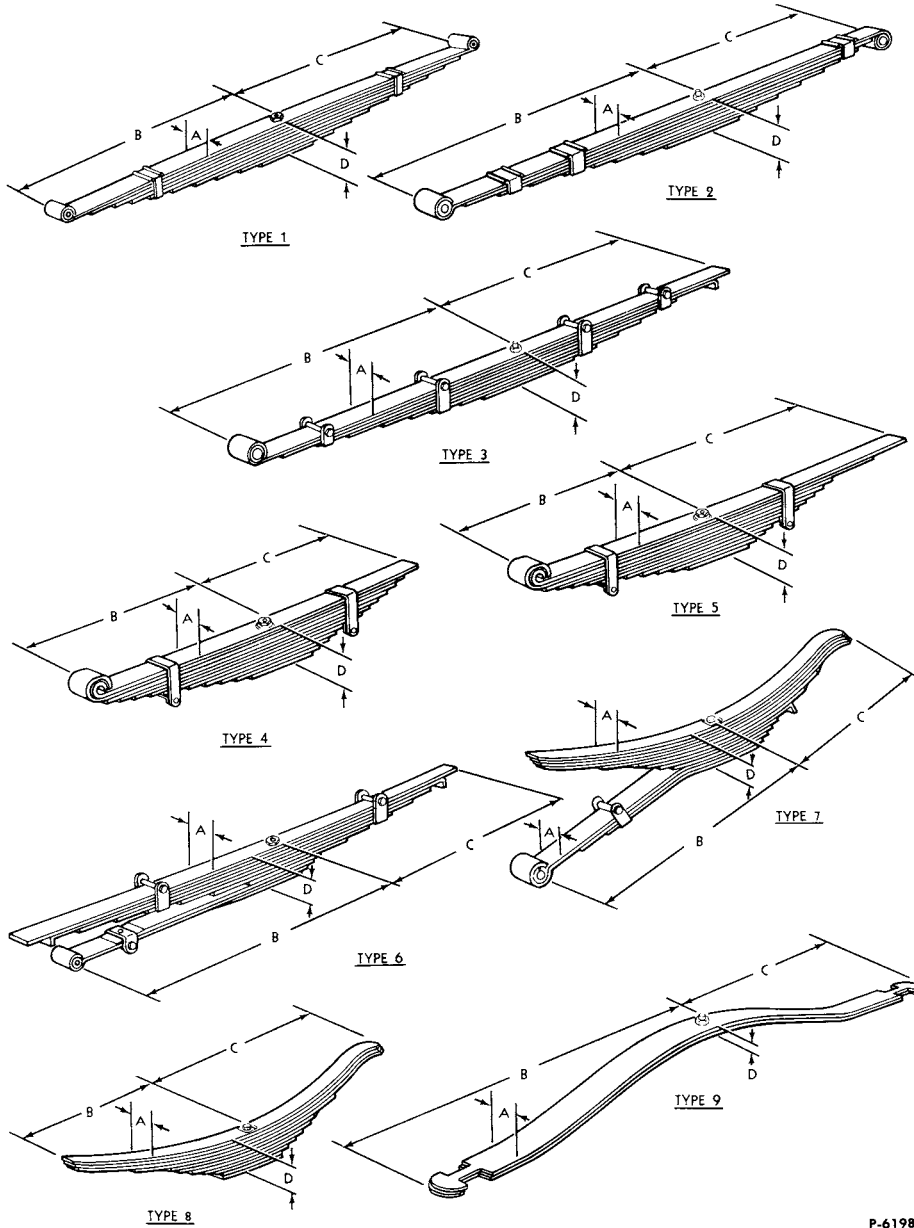

1. USE THE TRUCK SPECIFICATION LIST (T.S.L.)
  - a. Find the rear spring number which appears on the T.S.L.
  - b. Refer to the Rear Spring T.S.L. Cross-Reference Guide (below) to determine the service part number which corresponds to the T.S.L. number.
  - c. For Tandem models, the spring is a part of the Tandem Suspension Assembly. Find the number shown on the T.S. for Tandem Suspension Assembly (R.H. and L.H.), then refer to that Parts List in group 5888 to find a spring service number.
  - d. After locating a service part number, refer to group 5563 for available leaves.
2. USE THE SPRING STAMPING NUMBER
  - a. Find the stamped number which appears on the spring.
  - b. Refer to the Rear Spring T.S.L. Cross-Reference Guide (page 2) to determine the correct service part number.
  - c. After locating a service part number, refer to 5563 for available leaves.
3. USE THE REAR SPRING MODEL APPLICATION CHART
  - a. Determine the year and model of the truck.  
(In addition, it may be necessary to know the number of leaves, axle capacity, and rear axle type.)
  - b. Refer to the Rear Spring Model Application Chart (starting on page 3 of this section) to determine correct service part number.
  - c. After locating a service part number, refer to group 5563 for available leaves.
  - d. Spring Rating  
There are two methods of describing spring ratings currently used in the trucking industry. They are (1) rating at the pad, and (2) rating at the ground. Both ratings are expressed in pounds.  
(RATING AT PAD): This figure represents the amount of weight above the pad which can actually be supported by the springs. This incl. the chassis, body and payload weight.  
(RATING AT GROUND): This figure incl. the rating at pad plus the weight of components between the spring pad and ground. These components incl. axle, brakes, tires and wheels.
4. USE THE REAR SPRING SIZE CHART  
Refer to the Chart on page 3 and determine the correct service part number by using the spring "type" and dimensions shown.

SPRING ASSY. (AUXILIARY)—For model application refer to group 5560

**HOW TO FIND A SERVICE PART NUMBER FOR AN AUXILIARY SPRING**

1. USE THE PHYSICAL DIMENSIONS
  - a. Refer to the chart (below) and the illustration (below) to find a service part number with dimensions which match those desired.
  - b. After locating a spring service number, refer to group 5589 for available leaves.
2. USE THE STAMPING NUMBER
  - a. Find a stamping number on the spring.
  - b. Refer to the chart (below) to find a service part number which corresponds to the stamping number.
  - c. After locating a spring service number, refer to group 5589 for available leaves.
3. USE THE MODEL and YEAR OF THE TRUCK
  - a. Determine the year and model of the truck. (It may also be necessary to know the rear axle capacity and manufacturer.
  - b. Refer to the Model Application Chart in group 5560 to find the service part number.
  - c. After locating a spring service number, refer to group 5589 for available leaves.

P-6204

## HOW TO FIND ENGINE PARTS

### 1. IF THE ENGINE HAS AN ENGINE IDENTIFICATION TAG:

- a. See the explanation on page 1 & 2 as to where the tag is located and the use of "Change Level".
- b. Locate the engine code shown on the engine tag.
- c. Use the engine code and the Engine Identification chart (on page 3) to find the engine parts list required.

EXAMPLE: If the Engine Identification Tag shows engine code to be 715 then the Engine Parts List Index shows that parts for that engine are listed in Parts List Section 60.1.

### 2. IF THE VEHICLE SERIAL NUMBER IS KNOWN:

- a. Determine the engine cubic inch displacement (C.I.D.) from the General Information Section of this catalog, using the fourth character of the vehicle serial number.
- b. Use the engine C.I.D. and the Engine Parts List Index (on page 2) to find the engine parts list required.

EXAMPLE: A 1980 L900 gas model with serial prefix F90MV has a 477 C.I.D. engine, as shown for engine code "M" in the General Information Section. The Engine Parts List Index (section 60 page 2) shows parts for this engine are listed in Parts List Section 60.2.

### 3. IF THE ENGINE CUBIC INCH DISPLACEMENT (C.I.D.) IS KNOWN, USE THE ENGINE PARTS LIST INDEX (SEC. 60, PAGE 2) TO FIND THE CORRECT ENGINE PARTS LIST SECTION.

### 4. IF THE TRUCK HAS A TRUCK SPECIFICATION LIST (T.S.L.):

- a. Locate the engine code number shown on the T.S.L.
- b. Use the Engine T.S.L. Cross-Reference Guide beginning on page 3 to find the correct Parts List Section.

EXAMPLE: The Engine T.S.L. Cross-Reference Guide shows that engine code 825 on the T.S.L. represents an 8 cylinder 7.8L engine, for which parts are listed in Parts List Section 60.2.

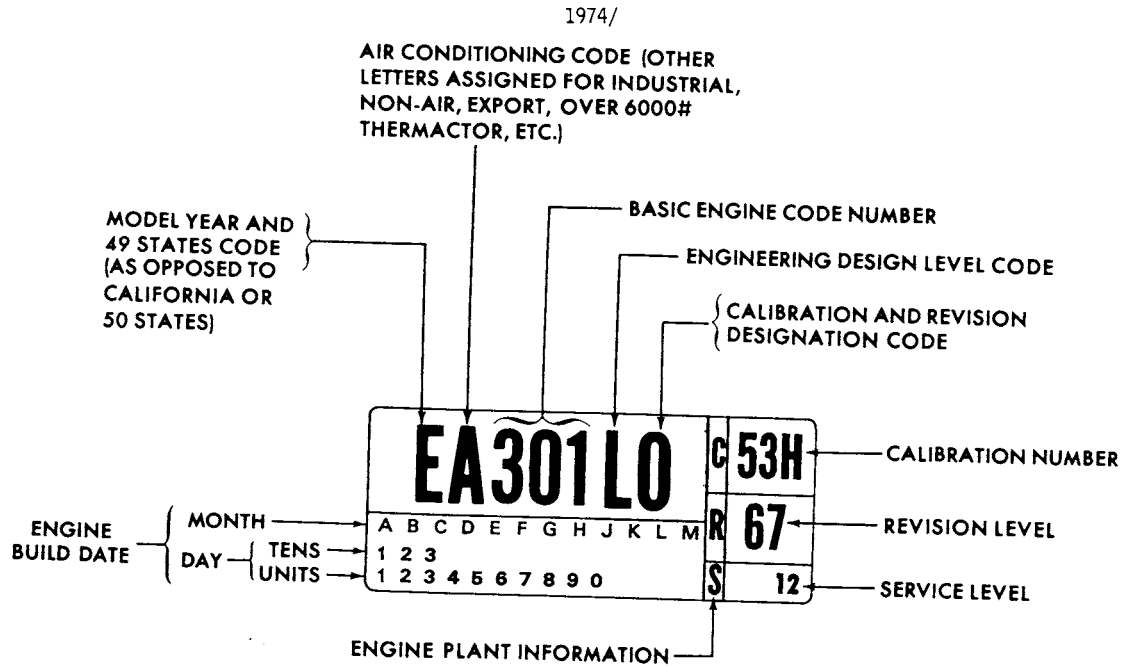

## ENGINE IDENTIFICATION TAG

IN ALL INQUIRIES ALWAYS FURNISH THE COMPLETE TAG IDENTIFICATION INFORMATION

All Ford engines for 1973/ include an engine identification tag. This tag describes C.I.D., model year, year and month of production, change level number & engine calibration information. All engine code numbers consists of a basic number, a suffix, and a prefix. Generally the basic number is adequate for engine identification, if additional information is needed the prefix or suffix is included.

The catalog uses the change level number in the same manner as date restriction information is presently used. The change level number is advanced only when a replacing part or assembly being introduced and the old part or assembly it replaced are not completely interchangeable.

1980/  
TRUCK SERIES 600/900

ENGINE LABEL LOCATION-NOTE 1

P-10886

New label (decal) installations will be made as follows:

ENGINE TYPE	LOCATION
8 Cylinder 370,401,429,475,477,534	Front of the Right Hand Rocker Cover

ENGINE PARTS LISTS INDEX

Engine parts are cataloged in separate sections for each related family or group of engines as follows.

	ENGINE GROUP	PARTS LIST SECTION
8 CYLINDER GASOLINE	6.1L (370 C.I.D.), 7.0L (429 C.I.D.)	60.1
	7.8L (475,477 C.I.D.)	60.2
	8.8L (534 C.I.D.)	60.2
CATERPILLAR DIESEL	6 cyl. 10.5L (638 C.I.D.)	60.7
	6 cyl. 14.6L (893 C.I.D.)	60.7
	8 cyl. 10.4L (636 C.I.D.)	60.5
CUMMINS DIESEL	6 cyl. 10.0L (611 C.I.D.)	60.3
	6 cyl. 14.0L (855 C.I.D.)	60.3
	6 cyl. 18.8L (1150 C.I.D.)	60.6
DETROIT DIESEL	6 cyl. 6.9L (426 C.I.D.), 9.0L (552 C.I.D.)	60.4
	8 cyl. 9.3L (568 C.I.D.), 12.0L (736 C.I.D.)	60.4
	8 cyl. 8.2L (501 C.I.D.)	60.8
FORD DIESEL	6 cyl. 6.6L (403 C.I.D.)	60.9
	6 cyl. 7.8L (476 C.I.D.)	60.9

HOW TO IDENTIFY TRANSMISSION PARTS

1. USE THE WARRANTY PLATE CODE:

- a. The transmissions (main & auxiliary) are identified by a code on the vehicle Warranty Plate.
- b. Refer to the General Information Section (under Warranty Plate Transmission Codes) to identify the transmission type and model.
- c. Refer to the Model Application Chart (starting on page 8 ) to find the Parts List number, or Illustration Section and Page number.
- d. Turn to the Parts List and select the component part desired.

2. USE THE TRANSMISSION CASE MARKINGS:

- a. Find a painted marking on the transmission case.
- b. Refer to the Transmission Identification Chart (starting on page 5) to find the Parts List number, or Illustration Section and Page number.
- c. Turn to the Parts List and select the component part desired.

3. USE THE TRANSMISSION IDENTIFICATION TAG:

- a. Find an identification tag or plate on the transmission case. (see pages 3 and 4 for illustrations showing locations).
- b. Refer to the Transmission Identification Chart (starting on page 5) to find the Parts List number, or Illustration Section and Page number.
- c. Turn to the Parts List and select the component part desired. (If the transmission case is replaced, transfer the tag to the new case so that identification will not be lost.)

4. USE THE MANUFACTURER'S NAME and MODEL NUMBER:

- a. Refer to the Model Application Chart (starting on page 10) to find the Parts List number for the model – example. A 1980 B600 truck with New Process Model 435 identified 10911 uses Parts List number 70.4.

5. USE THE TRUCK YEAR and MODEL:

- a. Refer to the Model Application Chart (starting on page 8 ) to find the Parts List number, or Illustration Section and Page number for the truck model (The chart is arranged by model year, within each model year, it is arranged by Truck Series.)
- b. Turn to the Parts List and select the component part desired.

6. USE THE THE TRUCK SPECIFICATION LIST (T.S.L.):

- a. Kentucky-built trucks contain a T.S.L.
- b. Locate the "Transmission Assy." number or "Auxiliary Transmission" number on the T.S.L.
- c. Use the Transmission Identification Chart (Page 5) to find the Parts List number.
- d. Turn to the Parts List and select the component part desired.

**TRANSMISSION PARTS LIST INDEX**

Parts lists are grouped by type and number of speeds and each group of related transmission parts lists is shown in a separate section. The section number can readily be identified with the transmission parts list numbers as shown in the following example:

TRANSMISSION TYPE	NUMBER OF SPEEDS	PARTS LIST NUMBER	TRANSMISSION SECTION NO.
Clark	5	5	70.5
Dana (Spicer) aux.	3 & 4	3	70.3
Dana (Spicer) (5000,6000 series)	5	5	70.5
Dana (Spicer) (SST 1062 Series)	6	6	70.6
Dana (Spicer)	7	7	70.7
Fuller	5	5	70.5
Fuller	6	6	70.6
Fuller	7	7	70.7
Fuller	8	8	70.8
Fuller	10	10	70.10
Fuller	9	9	70.9
Fuller	13	13	70.13
Fuller	15	15	70.15
New Process	4	4	70.4
New Process	5	5	70.5
Warner	4	4	70.4

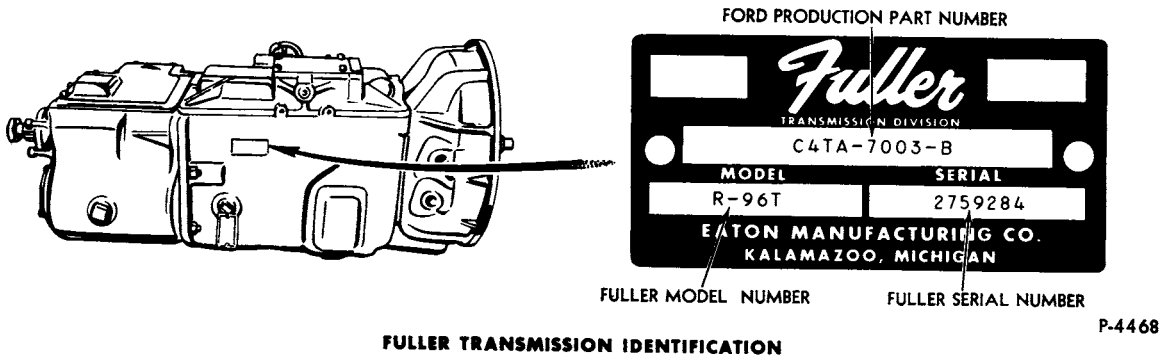

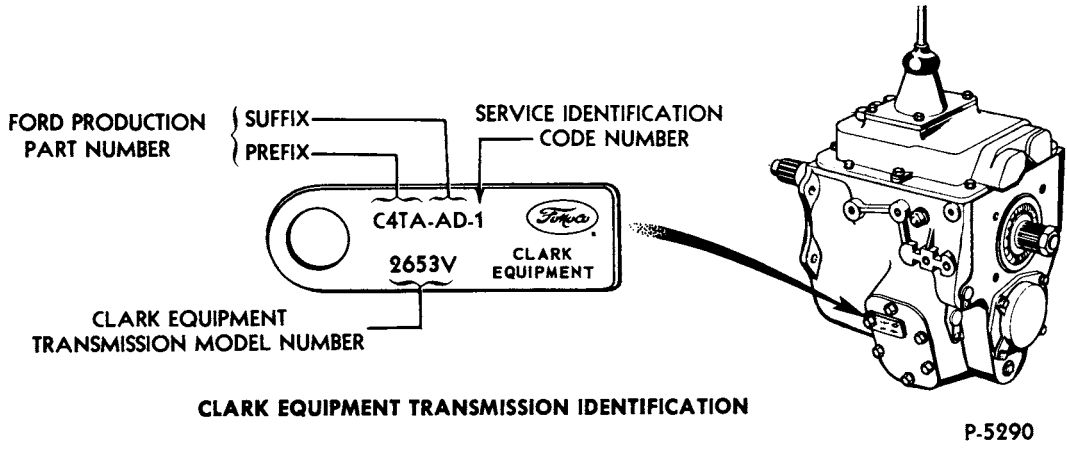

Kit part numbers are shown in their respective parts lists. A listing of the components for each kit is shown in Section 70A.

Bearing and gasket overhaul not serviced. Refer to Federal Moguel catalog #502T  
Order catalog on form #FPM 1310B, Heavy Truck Literature Order Form

Sections 70.1 thru 70.15 and 70A follow Section 70. Immediately following Section 70A, the Ford basic groups are continued in Section 71.

Parts lists are also provided for Auxiliary transmissions. Data for identifying Auxiliary transmissions is included in the Transmission Identification Chart following the main transmission listing for the affected model year.

**TRANSMISSION KIT PARTS LIST**

Instructions for identifying Transmission Assemblies and their related Parts List Numbers are shown on Page 1 of Section 70.

Kit part numbers are included in their appropriate parts lists in Section 70.3 and up.

Included in this section is a listing of components for each kit.

Parts Lists for new kits will be added at the end of this section, irrespective of part number.

Always refer to the Index below for page numbers on which kit components are listed.

# 1980/ TRUCK SERIES 600/900

## HOW TO FIND SERVICE PART NUMBERS FOR COMPONENTS OF GEARSHIFT TOWERS OR AUXILIARY GEARSHIFTS

1. Locate the number shown in the space marked "Gearshift Tower Assy." or "Auxiliary Gearshift Assy." on the Truck Specification List (T.S.L.)
2. Use the Cross-Reference below to find the Parts List Number. (T.S.L. number 7202 and 7210 have direct cross-reference to a service part number)
3. Refer to the appropriate parts list and select the desired component parts

SERVICING ALLISON TRANSMISSION  
ASSEMBLIES and RELATED COMPONENT PARTS.

Orders for replacement service component parts and assemblies for Allison Transmissions (AT and MT Series) are to be directed to your authorized Detroit Diesel Allison Distributor. Parts not directly related to, but functionally used with the Transmission can be found in this section.

8005 RADIATOR - Refer to General Information Section for T.S.L. information

**RADIATOR CROSS REFERENCE GUIDE**

- A To use this guide
1. Find the identification marking on radiator top tank or the side mounting bracket.
  2. Locate this number in the identification column below.
  3. Read across to next column to right to find the service number.
- B If the radiator identification is not known, the pages following this guide have radiator part numbers arranged in the following order:
1. Truck Series
  2. Model years
  3. Number of cylinders
  4. Cubic inch displacement

8260 HOSE (RADIATOR)

P-4189

RADIATOR HOSE LOCATIONS (TYPICAL)

**HOSE USAGE--** Where more than one upper or lower hose is used, see the "Location" column to find the hose used from pipe-to-radiator (R), pipe-to-engine (E), or oil cooler (O).  
Motorcraft numbers as they appear in the model application chart which follows can be used to determine diameter and length of the hose as explained below.

**FLEXIBLE  
RADIATOR HOSE  
FIRST LETTER PREFIX:  
SECOND LETTER PREFIX:**

- K - Designates the hose line in all cases.
- A - Designates 1 1/4" inside diameter at end opening.
- B - Designates 1 1/2" inside diameter at end opening.
- C - Designates 1 3/4" side diameter at end opening.
- D - Designates 2" inside diameter at end opening.

**NUMBERS:** (There must always be a three digit numeral). First two digits designate the amount of full inches of hose length. Third digit designates the remaining fraction of an inch (expressed in eighths of an inch) of hose length.

**EXAMPLE:**  
KAB-194 - Flexible radiator hose having a 1 1/4" inside diameter at one end and a 1 1/2" inside diameter at the other end opening and a hose length of 19 1/2".  
KC-092 - Flexible radiator hose having a 1 3/4" end opening inside diameter at both ends and a hose length of 9 1/4".

**MOLDED  
RADIATOR HOSE  
FIRST LETTER PREFIX:  
SECOND and THIRD LETTER PREFIX:**

- K - Designates the hose line in all cases.
- M - Designates the molded curved type hose.
- S - Designates the moulded straight type hose.

**NUMBERS:** Sequential numbering system beginning with the numeral "1".

**EXAMPLE:**  
KM-174 - Motorcraft moulded curved radiator hose.  
KS-7 - motorcraft moulded straight radiator hose.

8620 BELT (DRIVE)

### DRIVE BELTS HOW TO IDENTIFY FAN BELTS

1. By size and length – the Motorcraft Part Number allows you to determine belt size as explained below.  
FIRST LETTER PREFIX: J–Designates the V–belt in all cases

SECOND LETTER PREFIX:	Designates	Top width of belt	Designates	Top width of belt
	A	13/32"	G	7/8"
	B	15/32"	H	1/4"
	C	1/2"	M	19/32"
	D	5/8"	P	23/32"
	E	11/16"	R	17/32"
	F	3/4"		

**NUMBERS:** (There must always be a three digit numeral)  
First two digits designate the amount of whole inches of outside circumference of the belt.  
Third digit designates the remaining fraction of an inch (expressed in eighths of an inch) of outside circumference of the belt.

**LETTER SUFFIXES:** Suffixes will designate special types of V–belts–  
C–for cog belts, L–for laminated belts

**EXAMPLES:** \*JB–493–L–Laminated belt with 15/32" top width and 49 3/8" outside circumference.  
\*JF–535–C–Cog belt with 3/4" top width and 53 5/8" outside circumference.

2. By identification marking–refer to following chart.  
3. By year, model and application–refer to listing beginning on page 8 of this section.

### BELT IDENTIFICATION MARKING TO SERVICE PART NUMBER GUIDE

The purpose of this guide is to help find service part numbers for fan belts. Belts are identified with a marking on the outer (wide) surface of the belt. Although the identification marking and service part number may be the same in some instances, this is not generally true. Find the belt marking in the "Belt Identification Marking" column, then order the number listed in the "Service Part Number" column. Following the guide chart, belt part numbers are listed by model year to help find service part numbers when the belt marking is not known.

### IDENTIFICATION CHART

(Arranged according to Identification Number)

IDENTIFICATION	PART NUMBER	IDENTIFICATION	PART NUMBER
8620	BELT (DRIVE)		
Note:	* Identification number is same as Motorcraft sales number.		
	Any production belt with numerals in the suffix, such as A1A,A2A etc., are the same as the suffix AA.
