RPO Prices

Optional tires and wheels shown on pages 2-17 are priced in pairs. To obtain tire and wheel prices for rear axle applications, it is necessary to multiply these prices by two (2) for single rear axles or by four (4) for tandem rear axles. Spare tires or wheels are priced individually.

RPO Weights

Optional tire and wheel weights shown on pages 2-17 are for two (2). To obtain tire and wheel weights for single rear axles, it is necessary to multiply the weight shown by two (2); and for tandem rear axles, it is necessary to multiply the weight shown by four (4).

Spare tire, rim and wheel weights shown are for one.

TIRE-WHEEL PRICES

L / LT 7500 MODELS

NOTE: Vehicle Tire or Wheel Prices and Weights shown are for two tires or wheels for the front axle. For rear axle price or weight (exc. spare) multiply by two for a single rear axle or by four for a tandem axle. Spare Tire or Wheel Prices and Weights shown are total for one tire or one wheel.
