TO: Service Locations
 FROM: Service Systems Development
 SUBJECT: Terminal Extraction Tool and Pliers Master Kit DK10CHA17001

GENERAL INFORMATION

In an effort to assist the field, DTNA Special Tools group has developed a terminal extraction tool master kit. With this kit, the technician should be able to service all terminals for chassis and engine connectors.

Benefits of the Terminal Extraction Tool and Pliers Master Kit

- Services all chassis connectors
- Services all engine connectors
- Includes plier kit to properly replace terminals
- Includes pliers to properly crimp the Phillips STA-DRY Crimp and Solder Connectors
- Includes wire strippers to properly remove the insulation from the wire
